APRIL 2010 CONTINUING EDUCATION BULLETIN

Hello, and welcome to more continuing clinical education opportunity for credentialed professionals! Here is your monthly reminder about a ADRA-approved continuing education session from **10:00am-12:00pm** at **The Dan J. Talley Memorial Center**, 2000 Fairfield Avenue, Shreveport.

SAVE THE DATE: FRIDAY MAY 14, 2010!

It's a beautiful Monday early-autumn evening in Manhattan in the first year of the new millennium, a crystalline, steely-blue evening that makes you forgive New York anything ... a fabulous condition! People are scurrying about their normal business as usual, and many find themselves commenting on this beautiful, perfect weather!

The prevailing ambience of this day has been one of normalcy. America is self-assured of its image of benign world leadership and in what many think of as our preordained right to the world's highest regard. (The most pressing national event seems to be the current scandal about California Rep. Gary Condit and his affair with a 23 year-old congressional intern, Chandra Levy, who has disappeared under highly-suspicious circumstances; in covering the story, the tabloids are enjoying the proverbial field day.)

... A glorious and, seemingly, a normal evening.
